

Publish - Print - Promote

ZDocs Books specializes in helping authors, public speakers, consultants and others improve their on-going business and book selling operation. Once we receive your bid request, your ZDocs Books consultant will contact you to initiate your printing start-up plan. During this stage we will discuss with you the best way to print your product and explain our inventory management plan. As our consultants are non-commission, their goal is to find the most cost-effective method for you to print. Here are a few things to consider:

- The size of your book changes the cost of printing your book. The lowest-cost alternative for most products is the 8.5 x 5.5 size book. Your Elite consultant will work with you on what is the best size for your product.

- The quantity you want to print also changes the cost of your book. The more you print, the initial investment is higher, but the price per book is lower. The less you print, the initial investment is lower, but the price per book is higher. Tell us about your project and the products you need to be successful. Once our project coordinator has reviewed your form, we will contact you to discuss your project in more detail. You should expect to hear from us within 24 hours (for orders received over the weekend you should hear from us on the following Monday).
